Has your pet had any illness in the past 30 days?	<input type="checkbox"/>	<input type="checkbox"/>

PROCEDURE/S TO BE PERFORMED

If blood work has not been done on your pet recently, we recommend pre-anesthesia blood tests to rule out any pre-existing internal problems that may not be evident physically.

The costs of these important tests are:

- For pets under 3 years - \$42.00. **CBC**(tests for anemia and infection)
- **CBC INCLUDED WITH SPAYS AND NEUTERS******
- For pets 3 years and up - \$91.00. **CBC & PROFILE**(tests for anemia, infection, kidney & liver health & sugar levels)

YES, I WANT MY PET TO HAVE A PRE-SURGICAL LAB SCREEN.

NO, I DO NOT WANT MY PET TO HAVE A PRE-SURGICAL LAB SCREEN.

******INCLUDED WITH SPAYS AND NEUTERS******

- **WE STRONGLY ENCOURAGE PAIN CONTROL MEDICATION AFTER SURGERY.** This includes injections while your pet is hospitalized, and, in many cases, oral medication to take home. The cost is **\$35.50** if your pet is **under 30 lbs** and **\$49.50** if your pet is **over 30 lbs**. **INCLUDED WITH SPAYS, NEUTERS & CAT DECLAWS**

Do you want pain control medication given to your pet? Yes No

- **WE ALSO RECOMMEND AN INTRAVENOUS (IV) CATHETER AND FLUIDS DURING SURGERY.** IV fluids help to maintain normal blood pressure during anesthesia and provides a readily accessible vein if needed for medications. The cost is \$52.00 Yes No
- In an attempt to identify spayed **FEMALE** animals, we are able to put a small green tattoo line to identify them with your consent at no charge. Yes No
- While your pet is under anesthesia we can microchip your pet for permanent identification. The total fee is \$46.00. Yes No

Owner Release:

I hereby authorize Viewmont Animal Hospital to perform the above procedures.

Owner/Agent: _____ Date: _____

★ PLEASE NOTE: If your pet is found to have fleas, while in our hospital, your pet will be treated at your expense. ★
